Subject: NPRM 01-290 (01-278 Proceedings)

Dear Ms. Salas,

MagTek continues to support the proposed changes in section 15.225 of the FCC Rules, 47 C.F.R. § 15.225 to allow RFID interrogators operating at 13.56 Mhz to transmit data more effectively over a longer localized range. Also, it would harmonize the regulations and equipment performance with Europe and Canada.

Sincerely,

Emmanuel Limtao  
Engineer
